Proto-Dispatch feature: This allows you to connect a separate microphone (wired handheld or wireless headset) and talk through your train's speaker with your own voice when you select MENU -> SOUND -> EXTERNAL MIC. Just plug your microphone (3.5 mm plug) into the Proto-Dispatch port on your TIU. (You can also use the built in Microphone in the remote and press the MIC button.)

The CRC calculator used in this program is based on code written by Paul Reynolds with modification by me to generate both forward and reverse CRC and to handle the longer messages from the TIU to the PC. The Top Line of the display always shows the same fields depending on what type of command was received:
